

Cumulative contents

Volume 97, No. 1, May 1992

Parametric instability of rectangular plates by the energy based finite difference method [CMA 221] <i>J.P. Singh and S.S. Dey</i>	1
On the finite element dynamic analysis of flexible mechanisms [CMA 220] <i>Y.A. Khulief</i>	23
A computational procedure for part design [CMA 166] <i>G. Anagnostou, E.M. Rønquist and A.T. Patera</i>	33
Numerical study of an intrinsic component mode synthesis method [CMA 219] <i>F. Bourquin and F. d'Hennezel</i>	49
A cost comparison of boundary element and finite element methods for problems of time-harmonic acoustics [CMA 105] <i>I. Harari and T.J.R. Hughes</i>	77
Analysis of continuous formulations underlying the computation of time-harmonic acoustics in exterior domains [CMA 107] <i>I. Harari and T.J.R. Hughes</i>	103
Mixed finite element methods for the circular arch problem [CMA 224] <i>B.D. Reddy and M.B. Volpi</i>	125
Instructions to authors	147

Volume 97, No. 2, June 1992

Improved numerical dissipation for time integration algorithms in conduction heat transfer [CMA 216] <i>R.E. Cornwell and D.S. Malkus</i>	149
What are C and h ?: Inequalities for the analysis and design of finite element methods [CMA 161] <i>I. Harari and T.J.R. Hughes</i>	157
Circumventing the Babuška-Brezzi condition in mixed finite element approximations of elliptic variational inequalities [CMA 215] <i>H.J.C. Barbosa and T.J.R. Hughes</i>	193
The p -version of the finite element method for the elliptic boundary value problems with interfaces [CMA 223] <i>H.-S. Oh and I. Babuška</i>	211
On the L_2 error for the p -version of the finite element method over polygonal domains [CMA 227] <i>S. Jensen and M. Suri</i>	233

Adaptive implicit/explicit finite element methods for axisymmetric viscous turbulent flows with moving boundaries [CMA 217] <i>W.W. Tworzydło, C.Y. Huang and J.T. Oden</i>	245
Instructions to authors	289
 Volume 97, No. 3, June 1992	
Penalty-combined method and applications in solving elliptic problems with singularities [CMA 228] <i>Z.C. Li and T.D. Bui</i>	291
An improved numerical integration technique for boundary integral evaluation in anisotropic plate problems [CMA 277] <i>Z. Heng and D. McCammond</i>	317
Calculation of the opening displacement of surface-breaking plane cracks [CMA 231] <i>J.N. Dewynne, D.A. Hills and D. Nowell</i>	321
Using a reduced number of Lagrange multipliers for assembling parallel incomplete field finite element approximations [CMA 226] <i>C. Farhat and M. Geradin</i>	333
A field-consistent and variationally correct representation of transverse shear strains in the nine-noded plate element [CMA 230] <i>B.P. Naganarayana, G. Prathap, B. Dattaguru and T.S. Ramamurty</i>	355
A finite element model of crack growth in a finite body in the context of mode I linear viscoelastic fracture [CMA 229] <i>M.K. Warby, J.R. Walton and J.R. Whiteman</i>	375
Recent experiences with error estimation and adaptivity, Part I: Review of error estimators for scalar elliptic problems [CMA 225] <i>T. Strouboulis and K.A. Haque</i>	399
Author index	437
Subject index	439
Instructions to authors	445
